

August 2026

As we prepare for the completion of the Suncor Energy Centre redevelopment, several ongoing construction initiatives will occur over the next several months.

Work will primarily occur overnight from 7pm to 4am and the look of the building common areas will be fluid and dynamic with these exciting changes.

01 WEST TOWER GROUND FLOOR ELEVATOR BANKS

Beginning Monday, August 17:

- Granite removal and framing work will occur inside and at the entrances to each elevator bank. One side will be closed at a time during the work.
- Access to all elevator banks will remain available with wayfinding signage in place.

02 WEST TOWER SECOND FLOOR HOARDING

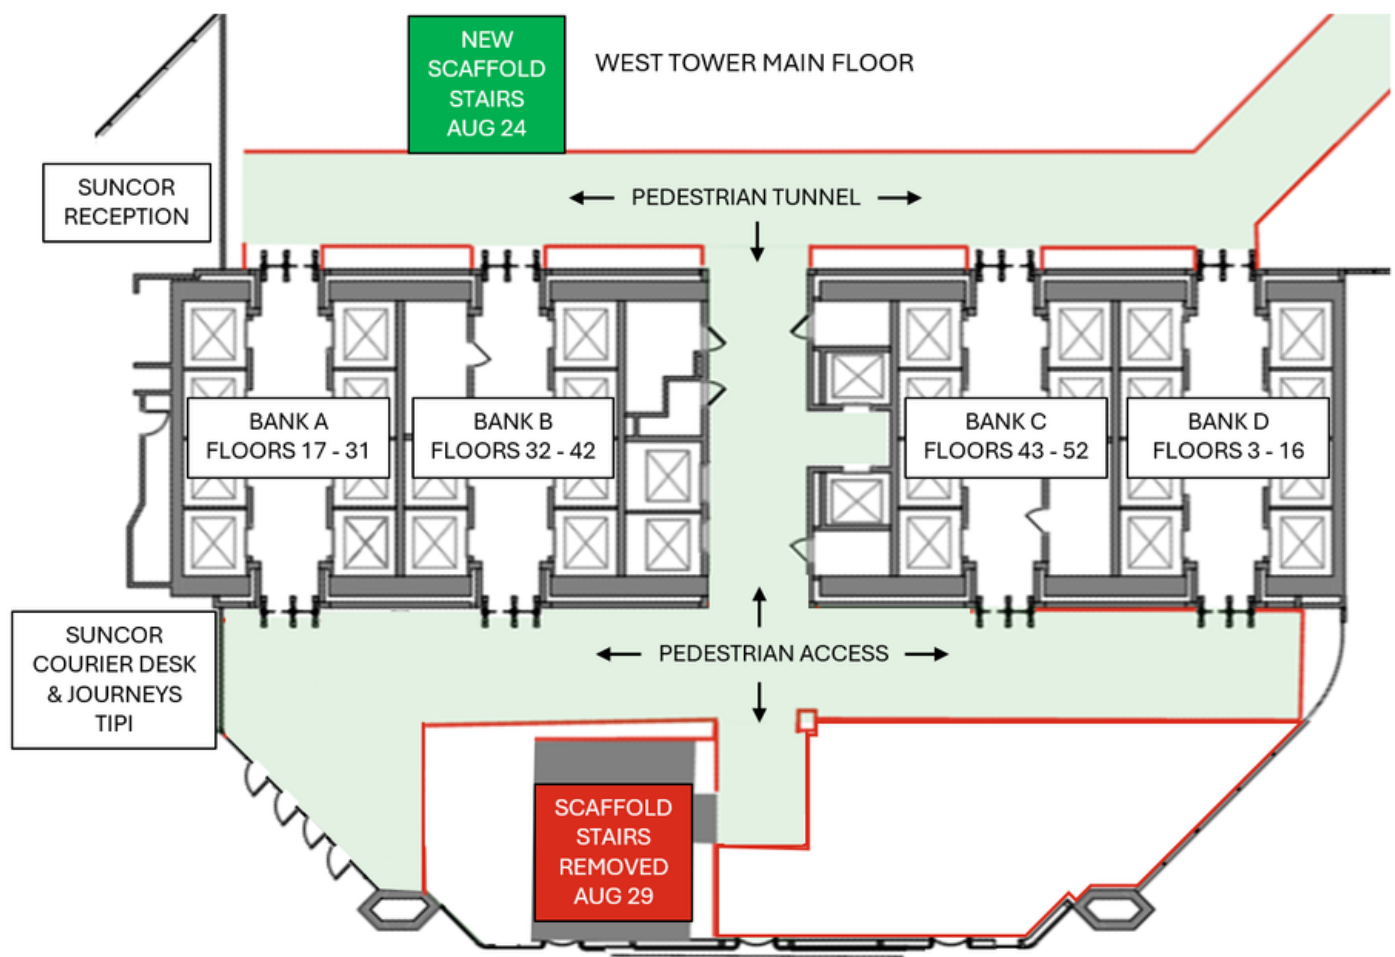

Beginning Saturday, August 22:

- Removal of the hoarding on the Second Floor of the West Tower will begin and be completed August 28.

03 WEST TOWER SCAFFOLD STAIR CHANGES

Beginning Monday, August 24:

- Monday, August 24 - a new set of scaffold stairs beside the Suncor Reception will be constructed to provide access between the Ground Floor and Second Floor.
- Saturday, August 29 - West Tower entrance scaffold stairs will be removed.
- Wayfinding signage will be placed in advance of the West Tower entrance scaffold stair removal.

04 GROUND FLOOR AND SECOND FLOOR HOARDING TUNNELS

Beginning Monday, September 7:

- Hoarding tunnels between the West and East Towers on the Ground Floor and Second Floor will be replaced with fencing.
- Wayfinding signage will be in place while work is ongoing.

05 FINISHING TOUCHES

- Various ceiling, wall, and flooring finishing touches will occur as we approach the completion of the redevelopment.

For your safety and the safety of others, please pay close attention to all redevelopment signage and tenant notices, and download the axiis app to receive regular updates.
